

50mL Aspirating Pipettes

Item# 1850

The Globe Scientific aspirating pipettes are available in 1mL, 2mL, 5mL, 10mL, 25mL and 50mL sizes.

Description

Globe Scientific aspirating pipettes are manufactured under strict ISO 9001:2008 standards in a class 100,000 cleanroom. They are non-pyrogenic, non-cytotoxic, RNase-free and DNase-free. These economical, non-graduated pipettes are an ideal choice where precise measurement of transfer is not required.

Features

- Manufactured under strict ISO 9001:2008 standards
- Produced in a class 100,000 cleanroom
- Non-pyrogenic and non-cytotoxic
- RNase-free and DNase-free
- Sterile pipettes are sterilized by gamma irradiation (SAL 10^{-6})
- Individually wrapped in thermoformed paper/plastic peel packaging
- Transparent, no graduations
- Fits all major brands of pipettors
- Safe alternative to glass aspirating pipettes
